**Include with this form:**

[ ] **Color Sample.** If completely repainting or re-stuccoing your unit the color La Luz must be used. Because so many paint contractors have created the wrong color, a color swatch of their LaLuz must be attached to this form and approved prior to the work being done. If partially repainting or re-stuccoing, use a chip of the current paint as your sample to be matched and a color sample created to be attached to this form to be approved. Color sample examples are also in the ACC mailbox.

[ ] Name and contact information of chosen licensed and bonded vendor/contractor, or indicate "self".

[ ] Vendor/contractor's proof of current license, liability insurance, and bond.

[ ] Vendor/Contractor's scope of work to include colors of exterior trim and frame, caulking, stucco finish, and clean-up.
